

# PULSE-AIR MODELS AT A GLANCE

## TECHNICAL DATA AND DIMENSIONS

**MODEL  
STANDARD**

Full power for rooms  
up to max. 600 m<sup>3</sup>  
Economy level for rooms up to max.  
400 m<sup>3</sup>

**Performance data:**

Full output: 17.5 kW = 1.55 kg  
heating oil/h  
Economy level: 13 kW = 1.1 kg heating  
oil/h.

**Air output:**

1,850 m<sup>3</sup> heating air per h.  
with approx. 45 degrees Celsius heating

**Dimensions and weight:**

Length: 750 mm  
Width: 550 mm  
Height: 950 mm  
Weight: 75 kg

**Electrical connection:**

220 Volt, 180 Watt

h = hour

**MODEL  
PLUS**

Full power for rooms  
up to max. 1,000 m<sup>3</sup>  
(with optimum insulation and the  
latest  
technology: 1,600-2,000 m<sup>3</sup>)

**Performance data:**

Full output: 23.5 kW = 2.1 kg heating  
oil/h  
Economy level: 18.5 kW = 1.65 kg heating  
oil/h

**Air output:**

2,500 m<sup>3</sup> heating air per h.  
with approx. 45 degrees Celsius heating

**Dimensions and weight:**

Length: 750 mm  
Width: 550 mm  
Height: 950 mm  
Weight: 75 kg

**Electrical connection:**

220 Volt, 180 Watt

h = hour

**MODELL  
CONSTRUCTION INDUSTRY**

Based on the Plus model, with a  
stronger housing and standard castor  
wheels as standard.

Full power for rooms  
up to max. 1,000 m<sup>3</sup>  
(with optimum insulation and the latest  
technology: 1,600-2,000 m<sup>3</sup>)

**Performance data:**

Full output: 23.5 kW = 2.1 kg heating  
oil/h.  
Economy level: 18.5 kW = 1.65 kg heating  
oil/h.

**Air output:**

2,500 m<sup>3</sup> heating air per h.  
with approx. 45 degrees Celsius heating.

**Dimensions and weight:**

Length: 750 mm  
Width: 550 mm  
Height: 950 mm  
Weight: 78.5 kg

h = hour
